# Using Your Insurance

If you need to seek medical treatment, please be sure to seek care appropriately for the condition/situation that you are experiencing, as this will make the billing and payment process much smoother.

Here are some guidelines for choosing appropriate medical care.

## Non-Emergency Care

For immediate care in non-emergency situations, you **SHOULD** go to a Walk-in Clinic, Urgent Care center or local doctor. Urgent Care and Walk-in Clinics are often the best places to seek medical care as you can walk right in and they require no appointment.

You **SHOULD NOT** go to the Emergency Room (ER) for this type of care unless it is a real emergency situation!

## Emergency Care

The Emergency Room (ER) is designed for medical emergencies. If you need emergency care for any reason, please get to the nearest Emergency Room (ER) or call the emergency services (911 in the USA) for immediate treatment. It is also important to make sure you contact WorldTrips as soon as possible if you have been hospitalized.

As with anything, we ask you to use your judgment with a situation. If you feel you need immediate emergency attention, please do not delay and go straight to the Emergency Room. However if you are unsure, or your condition is not severe, then either call the emergency services for assistance or visit a local doctor, urgent care center or walk-in clinic in your area.

## ID Card

It is extremely important that you carry your insurance ID card with you at all times and make sure to show it when you seek treatment. Your ID card will be emailed to you before you travel and should be kept with you at all times.

## Doctor/Hospital Search

You can search for doctors/hospitals online in your Student Zone, or you may seek treatment from any providers you wish to visit. Simply visit the provider, hand over your insurance ID card and pay any bills directly to the provider.

If you have been hospitalized, you need to contact WorldTrips as soon as possible so they can monitor your medical care and arrange direct payment to the hospital.

Outside the USA, you can seek treatment from any provider of your choices, pay up front and then file a claim for reimbursement.
